

On these pages you can find general information about our software products, manuals, releases notes and artifacts.

1. Onboarding

1.1. Structure

This product documentation platform is based on BookStack, which uses the hierarchical structure of a library to categorize content:

- **Shelves:** Product families which consist of individual products that are intended to be combined (examples: true-Xtender, true-Sign)
- **Books:** Single product containing manuals, releases and more (examples: true-Xtender Registration Authority, true-Sign Crypto Service)
- **Chapters:** A collection of the same document type available for different product versions (examples: Manuals, Releases)
- **Pages:** The individual document containing content of a product about a specific version (examples: Introduction, User Manual V-1.0.0, Release V-1.0.0)

1.2. Tutorial

We recommend to take a look at our [documentation of this platform](#) to discover all the features it has to offer and how to use them. Check out the [Features](#) section on this page for a quick overview of what this platform has to offer.

2. Features

2.1. Security advisory

The security advisory of our products is also available on this platform [via this shortcut](#) or by browsing for the **Security Advisory** book in the [books view](#).

2.2. Product documentation (coming soon™)

Installation manual, user guides, change logs and more for various versions will be available for customers with active product licenses.

2.3. Software downloads (coming soon™)

Current versions of our products will be downloadable from **Release** chapters for customers with a valid license.

2.4. Page revisions and exports

Previous page versions are kept accessible as revisions and self-contained copies can be exported to a variety of formats.

2.5. Email Notifications (coming soon™)

Changes within pages or whole chapters can be tracked by enabling the watch function which will send a notification email.

2.6. Public content

The platform also contains information about other products for which a customer does not hold an active license.

3. Contacts

If you need more information or want to reach out, feel free to contact us via any of the following channels:

- [SITS Website](#)
- [Email](#)
- [Service Portal](#)
